

E Series – economical granulators

Use as a central granulator for in-house recycling.

General Description

The completely welded cutting chamber in conjunction with the “V” type rotor design ensures dependability in operation and universal application use. The housing design offers easy and quick access to the cutting chamber during rotor and stator knife changes, servicing or screen changes.

Technical Machine Advantages

- Knives are adjusted outside of the machine
- Mobile Compact design
- Different rotor types available
- Easy accessibility
- Strong tangential infeed
